

SERVING THE UNIQUE NEEDS OF VETERANS

Bancroft is a participating contractor in the Department of Veteran's Affairs *Assisted Living Pilot Program for Veterans with Traumatic Brain Injury*, which provides a dedicated funding source to cover the cost of private rehabilitation programs.

OUR TREATMENT PHILOSOPHY

Bancroft's clinical experts have developed a treatment philosophy that reflects the most current best practices in TBI rehabilitation and combines two complementary treatment models.

The Neurobehavioral Model is based on highly-effective methods of teaching skills and adaptive behavior while recognizing the impact of cognitive strengths and weaknesses.

The Person-Centered Model is based on the philosophy that a person's disability is just one aspect of who they are, and they are best served when they have a circle of support for each of their specific goals and programs.

Together, these two proven models are used to customize comprehensive care plans to address even the most medically-complex conditions.

WHY BANCROFT?

For more than twenty years, Bancroft has been a leader in the field of rehabilitative brain injury services. We know what it takes to rebuild lives and regain independence. Call us today for more information at (800) 774-5516.

BRAIN INJURY SERVICES

"Bancroft demonstrates a strong commitment to a person-first environment with a conscious effort to remove barriers to inclusion." Source: 2010-2013 CARF ACCREDITATION REPORT FROM BANCROFT
